BULLETIN NO. 1

February 8, 1927

Mount Arbor Nurseries

E. S. WELCH, President

SHENANDOAH, IOWA

We offer one of the largest and most complete lines of General Nursery stock in the United States. Everything offered is young, thrifty, well-grown stock, graded to the highest standard

SPECIAL

**A LARGE SUPPLY OF CLIMBING ROSES AND
PRIVET AMOOR RIVER NORTH**

Order Early Before Assortment Becomes Broken

STORAGE—Our modern Storage Buildings are especially designed for handling Nursery Stock in the best possible manner, enabling us to get the stock to our customers in prime condition. You should consider this in buying.

SEND US YOUR LIST OF WANTS. We can often quote lower than our published rates on quantity lots.

TO THE TRADE:

We have by untiring efforts, built one of the largest and most complete wholesale nurseries in the United States. Our facilities are unsurpassed, and we have a very capable organization.

We cultivate a large acreage of land at Shenandoah, and have expert propagators and experienced nurserymen, many of them having been in our employ for twenty-five years or more. We have twenty acres of overhead irrigation for growing Perennials, Evergreens and choice varieties of Ornamentals.

Our superior storage facilities enable us to handle and ship stock through the winter months, and up until late in the spring. All orders are given careful, personal supervision and handled and packed under cover. Car lots loaded on our side track, inside our main storage building when weather is unfavorable.

In addition to our plant here at Shenandoah, we have established branch plants at various sections of the United States where best quality of stock can be grown. We also have growing connections with the best growers of French Fruit Tree Stock in France, and are in position to furnish the trade with the best quality of French grown Fruit Tree Stocks, also we are large growers of American Stocks.

We urgently request correspondence and orders from new customers, being confident that you will be pleased with our methods of doing business. "Quality and Service" is our motto.

TERMS AND CONDITIONS

PRICES—The prices named in this list are based upon present market conditions, and are subject to change without notice. These are trade prices and are for quantities. Long lists of trees or plants of a few of a variety will be billed at 10 to 15 per cent. higher according to quantity. **All orders should be made for 10's or multiples of 10 of a variety; 50 of 10 of a variety at 100 rate; 300 in lots of 10 or multiples of 10 at 1000 rate.**

All prices are net, boxing or baling extra, f. o. b. cars here in bulk car lots.

SHIPPING—Please give shipping directions, whether by freight or express, also route. If no directions are given we will forward to the best of our judgment, without assuming responsibility, as **All Goods Travel at the Purchaser's Risk and Expense.**

TERMS—Cash or satisfactory security, except we extend the usual terms of credit, to known, responsible nurserymen. Orders to be sent C. O. D. should be accompanied by **one-fourth cash** to receive prompt attention.

CAUTION—We accept all orders subject to crop conditions and on condition that same shall be void should injury befall our stock from hail, fire, frost, error in count, or other causes over which we have no control.

GUARANTEE OF GENUINENESS—If any nursery stock, etc., proves untrue to description under which it is sold, we hold ourselves in readiness, on proper proof, to replace all such nursery stock, etc., that may prove otherwise, or refund the amount paid, but we shall in no case be liable for any sum greater than the amount originally received for said nursery stock.

CLAIMS—We express or imply no warranty as to productiveness or life of the nursery stock we sell. No claims for errors or discounts allowed unless made within ten days after receipt of goods.

HEIGHT AND CALIPER—Height given of fruit trees is approximate and represents average height of most varieties. Slow growing kinds will fall short of height specified as it is intended that THE CALIPER SHALL GOVERN.

FRUIT TREE STOCKS

American Grown

Our Kansas grown Apple Seedlings are of exceptional quality this year: fine, strong grades, the best we have grown in many years. Can guarantee them to please.

We have Seedlings grown from both imported French and Native Vermont Seed.

Will exchange Apple Seedlings for 100 bushels of Southern Natural Peach Pits, crop 1926.

When possible we combine various shipments in car lots to central distributing points, giving our customers the benefit of car load freight rate.

APPLE SEEDLINGS

FRENCH GROWN—Imported

We import our stocks direct from the best French Growers of Fruit Tree Stocks.

Upon arrival of our import shipments, which come in carload lots, all stock is carefully examined by a Government Inspector and only clean, healthy stock allowed to pass. All stock is carefully regraded, hence customers can depend on getting stock of best quality without the risk of importing direct, which is an important item to consider in buying.

Orders for French Stocks should be placed early, as the supply of most kinds is limited.

ROOT GRAFTS

For this work we employ only skilled labor and select the best material. We use orchard scions as far as possible and vigorous, healthy seedlings, carefully selected when grading our blocks of seedlings.

Our piece root grafts are made with a six inch scion and three and one-half inch root, the same style as we make largely for our own planting. For whole root grafts we use the entire seedling, either a straight or branched root as the customer may select.

Orders for grafts are made up special, and packed separately for each customer. They are repacked and inspected as often as necessary to insure their shipment in prime condition.

We get best results in our planting of grafts by plowing our land deep in the fall, and planting just as early in the spring as the condition of the soil will permit.

Any Style Grafts Made to Order

Prices quoted are for 100 and multiples of 100 of a variety.

DECIDUOUS TREES

Our Shade and Ornamental trees are first-class, well-shaped, young and vigorous nursery grown trees, with good roots. They have been grown from seedlings transplanted in nursery row especially for this purpose.

All calipers taken six inches above the collar.

PERENNIALS

Our Perennials are mostly one year Field Grown stock, healthy, full of vigor and will grow when planted.

Proper packing for shipment is largely responsible for success with Perennials. We have this proposition solved, by using special boxes and packing material made for this purpose, and can safely guarantee them to arrive to you in first class condition.

Varieties * indicates adaptability for rock plants.

Color indicates bloom, Month, period of blooming season. (") Inches high when in bloom. (') Feet high when in bloom.
